

OBJECTIVE:

Computer Systems Engineer and Full-Stack Developer specializing in React, React Native, and ASP.NET. Experienced in building and delivering production-grade web and cross-platform mobile applications, from TypeScript front ends to RESTful APIs and databases. Passionate about clean architecture, real-time systems, and scalable, user-centric solutions. Seeking a Full-Stack Developer role where I can contribute across the entire software development lifecycle.

EXPERIENCE:

MENA Talents

Feb 2025 - Present

Full Stack Developer | React Native & ASP.NET

- Developed a cross-platform golf social app using React Native (Expo SDK 54), along with a role-based admin portal with protected routes and automatic dashboard redirection.
- Built scalable admin dashboards with full CRUD operations, pagination, multi-field filtering, sorting, and bulk data import (Excel/CSV/JSON).
- Designed a reusable API architecture using custom hooks and HOC patterns for unified authentication, error handling, and token refresh across mobile and web.
- Implemented real-time functionality using SignalR, including live game scoring updates and chat with message editing and read receipts.
- Developed end-to-end game lifecycle features: invitations, deep linking, live scoring, dispute handling, ratings, and PDF scorecard generation.
- Integrated Firebase Analytics, push notifications, and GPS-based features into the mobile application.
- Contributed to ASP.NET Core backend features, including authentication flows, email verification, password reset, and an issue-reporting system.

aba agency

Mar 2024 - Dec 2024

Full Stack Developer | React Native & Laravel

- Developed a cross-platform enterprise mobile app using React Native, supporting multiple departments, including HR, Management, Events, Design, and Finance.
- Implemented dynamic department-based business logic (HR, Management, Events, etc.).
- Built core business features including attendance tracking, task & meeting management, and role-based workflows across multiple departments.
- Designed and implemented multi-language (Arabic/English) support with RTL handling and a multi-theme system (light/dark/custom themes) with persistent user preferences.
- Applied clean architecture principles using reusable components, custom hooks, and Context API.
- Contributed to backend development in Laravel, including real-time chat APIs, notification services, and Sanctum-based authentication improvements.

Freelancer at Staffready Mablewood
Front-End ReactJS Developer

Jun 2023 - Jan 2024

- Rewrote an existing project using React and Material UI, delivering a modern interface with improved usability.
- Collaborated with team members using Jira and GitHub, participating in code reviews and version control workflows.
- Adapted and optimized the web application into a React Native mobile app for cross-platform deployment.

IConnect Technologies

Mar 2023 - Jun 2023

Full-Stack (ASP. Net web API & Angular) Intern

- Built a full-stack web application using Angular and ASP.NET Web API with Entity Framework Core.
- Designed and implemented RESTful APIs with DTOs, session management, and microservices architecture.
- Worked with SQL Server databases for data modeling and querying.

EDUCATION:

- **Bachelor's degree** **Nov 2018 - Mar 2024**

Computer system engineer
Arab American University

Graduation project:

Medical half-automated system for injectable drugs.

- **High School (Tawjihi)** **2017-2018**

Asira al-Qibliya secondary school

TECHNICAL SKILLS:

- **Programming Languages:** JavaScript, TypeScript, C#, Java
- **Frontend:** React, React Native, Flutter, HTML, CSS, Material UI, Tailwind
- **Backend:** ASP.NET Web API, Entity Framework Core, Laravel, SignalR
- **Databases:** SQL server, Oracle, PL/SQL
- **Tools:** Git, GitHub, Firebase, Jira, Linux
- **Software Packages:** MS-Office (MS Word, MS Excel, MS PowerPoint)

LANGUAGES:

- **Arabic:** Native
- **English:** Proficient
